GP PowerPack — WilloWare

Posted on September 19, 2012 (http://mpolino.com/gp/gp-powerpack-willoware/) by Mark Polino (http://mpolino.com/gp/author/mpolino/)

The good folks at WilloWare continue to be ahead of the curve with their GP PowerPack (http://willoware.com/products/gp-powerpack/). Updates to the GP PowerPack (http://willoware.com/products/gp-powerpack/) include a number of items that we've highlighted as suggestions for Dynamics GP. You can get them now, without waiting for MS. Some of the new items include:

- Auto Filling the Distribution reference
- Resizing the SmartList window
- Locking SmartList Favorites
- Copying User Defined fields during mass modify

This is a reall small sample. Look at the GP PowerPack (http://willoware.com/products/gp-powerpack/) page for more and support folks who are bringing you fast fixes to issues.
